

Frappe Infrastructure Summary Report

Generated on: 2026-10-02 20:27

Total Managed Sites Across 5 Servers: 389 Sites

Server 1 (IP: 161.97.79.225)

Total Sites: 9 (All Active)

Populated Sites: 1 (nexas.havano.online with 17 apps including HRMS, Helpdesk, Insights)

Empty Sites: 8

Server 2 (IP: 161.97.176.159)

Total Sites: 105 (All Active)

Highlights: Heavy-load production server hosting over 100 active domains (e.g., aceshideout, show.havano.online). Almost all sites are running thick stacks paired with custom fiscal and payroll integrations (erp2erpfiscal, havano_payroll).

Note: Server memory was at 94% with a pending system restart flag at the time of the check.

Server 3 (IP: 45.159.230.230)

Total Sites: 3 (All Active)

Highlights: Small specialized fiscal server.

erpfiscal.havano.online (3 apps)

havanofiscal.havano.online (1 app)

site1.local (2 apps)

Server 4 (IP: 62.169.26.147)

Total Sites: 205 (All Active)

Highlights: Massive deployment server! It handles hundreds of templated subdomain sites (e.g., erp100.havano.cloud to erp286.havano.cloud).

The vast majority of these sites are running a standard 4-app to 10-app stack: frappe, erpnext, erp2erpfiscal, newara, with some having hrms or havano_pos_integration.

Server 5 (IP: 173.212.197.9)

Total Sites: 67 (All Active)

Highlights: An extension of the erpXXX templated deployment server (ranging from erp200 to erp300).

Most sites are running frappe, erpnext, newara, and erp2erpfiscal.

Noteworthy: A 'Trial Balance Fix Applied' patch is noted across the apps list on this server.

Note: Server had a pending system restart flag at the time of the check.
